This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE

With the appearance of this volume, the place of Sigma Alpha Epsilon as the foremost of fraternities, in the multiplicity of its publications, is still further assured. Few fraternities have even approximated ours in its endeavors to use the printed word for the benefit of its members. S. A. E. collectors are already finding that the five foot shelf will not contain the numerous books which have appeared in recent years. The field is still white and any disposed to cultivate it in behalf of S. A. E. will find ample opportunity.

The publication of WHO'S WHO IN S. A. E. was brought about by a desire to furnish the fraternity information concerning its distinguished sons. It is a year since the work was commenced of gathering data, and the finished book will now show how well we have succeeded in the original purpose as well as in the larger field into which our editorial labors lead us. For we soon found that there was even a greater demand in the fraternity for a directory of our professional men, and so along with the names of those who have accomplished things in statecraft, in literature, in the arts and the church, we have included the names of a great number who are adorning their professions and who in their various communities have won places of honor and respect. Together with these were later added the names of hundreds of our men who are still in college halls, and who have there evidenced their good qualities by their work in scholarship or in other activities of campus life. It is to be regretted that early in the effort to bring the publication to pass, it was represented that admission to its pages was only open to subscribers. Nothing could be more mistaken than this for the pages which follow contain the names of hundreds, who in the greater life of the world, in the professions and in our colleges, have won places, and yet have not subscribed to this publication. The chief reason why the volume is not even a fuller one is because thousands of those who have been circularized (and this includes every living member of the fraternity), have failed to return statistics. To what extent they were influenced by the ill report, we can only guess. To be just, it is a well known fact that

fraternity alumni as a rule do not respond to requests for information, whether it be for a catalogue, a chapter letter, a pocket directory or any other line of effort. After an experience of many years in this line of work, we are ignorant of any method that will force an answer. If a man won't reply when you furnish him the postage and continues to ignore repeated requests, he simply won't, and any suggestion we have ever seen to remedy this has been composed of what Shakespeare spoke of as, "Words, Words, Words."

The names in the book have been arranged in alphabetical order. The biographies are followed by a locality index. It is hoped that the volume will be useful in calling attention to the large number of men in S. A. E. who, to use the vernacular, have made good. Many of these are infrequently mentioned in the public prints and yet a close inspection of these pages will show that hundreds of places of importance in American life have called S. A. E.'s to their service. It is good for the fraternity to know about these, her sons, and to this end, she is presented with this record.

Central University, 1888; initiated by Kentucky Kappa, Sept. 16, 1884. In September, 1888, he was appointed principal of the Bardstown public School. He resigned his principalship in 1893, and opened a law office. On August 5, 1893, the day he became eligible, he was nominated for the Kentucky legislature on the democratic ticket, and was elected without opposition. In 1895, he declined renomination. In January, 1896, the death of his successor, Isaac, brought his name again to the front, and he was nominated and elected at the special election, Feb. 1. He was renominated and elected without opposition, and in the session of 1898 no opposition was given to his selection as speaker of the house. In 1899 he was nominated for lieutenant governor of Kentucky on the ticket with William Goebel. After the balloting the contest was carried before the general assembly and on Feb. 1, 1900 the contest was decided in favor of Goebel and Beckham. Upon the death of Gov. Goebel, on Feb. 3, Beckham became governor to serve until the following regular election, but before that time he was nominated as the Democratic candidate, July 20, 1900, and on Nov. 6, was elected to fill out the term ending Dec. 1903. At the state Democratic primary held May 9, 1903, he was nominated without opposition to be the Democratic candidate for governor for the full term of four years, beginning Dec. 8, 1903, and was elected by 26,350 majority. The principal accomplishments of his administration of eight years were the restoration of peace and quiet from the turbulent and chaotic condition which existed in the state at the time of Gov. Goebel's assassination; the complete rehabilitation of the state's finances and credit, and the payment of the entire state debt, one million dollars bonded debt being paid before it was due, the collection of the neglected civil war and Spanish war claims against the Federal Government, amounting to about $1,500,000; the great improvement in the public institutions of the state and the establishment of new institutions; the advance and progress in the schools and the cause of education, including the extension of the State University and the establishment of the Normal Schools; the building of the new State Capitol; and the accomplishment of all these and other improvements without an increase in the tax rate or borrowing a dollar. During his administration he was also instrumental in the passage of a county Unit law and other temperance measures under which the "dry" territory of Kentucky was extended to about one hundred of the one hundred and nineteen counties of the state, and in the enforcement of the laws for the Sunday closing of saloons. In 1906, he was nominated in the Democratic State primary as the candidate for the U. S. Senate, but was defeated in the General Assembly of 1908, by W. O. Bradley, the Republican nominee, four Democratic members having bolted, and voted for Bradley. He returned to the practice of law in Frankfort, Ky., as a member of the firm of McQuown & Beckham, and in 1909, became the editor of the Kentucky State Journal, while continuing his law practice, but retired from the newspaper work in 1911, to devote his entire time to his law practice; m. Washington and Lee University; initiated by Virginia Sigma, Oct., 1876; took high rank in his classes and a leading part in college life, and especially in the literary societies and athletics; studied law with a private class under his father and ex-attorney-general, James Speed. He commenced the practice of law in 1880 in Louisville, with his father. In 1887, he and Henry C. McDowell, of Lexington, Ky., (now judge of the United States Circuit Court for the Western District of Virginia) went to Mineral City (now Big Stone Gap), formed a partnership, and soon enjoyed a lucrative practice. In 1894 the firm of Bullitt & McDowell was dissolved, and in 1895, Mr. Bullitt formed a partnership with Mr. J. L. Kelly, with offices at Big Stone Gap and Bristol, Va. Their business is chiefly for corporations, but they do also a general practice. Mr. Bullitt is also president of the Big Stone Gap Land Co., the Century Land Co., and The Virginia-Kentucky Coal Corporation. He was a member of the Kentucky Legislature in 1885-6; a candidate for congress in Virginia in 1896, but withdrew from the race after the adoption of the Chicago platform. He was first Lieut. and then Capt. of the Crescent Hill Guards (Cavalry), which afterwards became Co. E. of the Louisville Legion. His military training stood him well in hand when he moved to Big Stone Gap. He and his partner, Mr. McDowell, organized the "Police Guard" of Big Stone Gap, a law-and-order organization established under authority of the town council. About forty of the best men of the town joined. Bullitt was elected captain. From one of the most disorderly of southwest Virginia towns, Big Stone Gap soon became the most orderly. The "Guard" is still kept up. "Blue-Grass and Rhododendron," by John Fox, Jr., contains this dedication: "To Joshua F. Bullitt, Henry Clay McDowell, Horace Fox, the first three captains of the Guard." One of the stories of this book, "Civilizing the Cumberland," contains a very interesting account of the "Police Guard" and its captain. In 1897 he organized the athletic association of the Big Stone Gap, of which he was president until he resigned in 1906. His favorite diversions are riding, shooting, tennis, pool bass fishing, whist and chess.
